General informations

We are expecting high volumes of traffic again at the Nordstil 2019 trade fair. Therefore a carefully coordinated and efficient system is needed to enable the logistics processes before and after the trade fair to go off without a hitch. One key aspect of this system is the use of time slots for certain types of vehicle, heavy goods and exhibits in order to control vehicular access to the site.

Your cooperation is required:

Please pass on the following information to your sub-contractors!

Important notice!

If vehicles do not arrive in the allocated time slot for delivery or collection for that particular type of vehicle then they will have to wait until the allocated time slot before loading or unloading.

Another essential component is the imposition of a security deposit to enter the exhibition site. The security deposit must be paid in cash and expires when the permitted time is exceeded.
