Nordstil, which takes place twice a year, is the order platform for northern Germany and Scandinavia. It offers a comprehensive range of products divided into the product areas Home & Garden, Style & Design, Kitchen & Gourmet, Gifts & Stationery and Jewellery & Fashion. For the retail trade, it is the regional order date for the spring and summer business, as well as for the autumn, winter and Christmas business. With the Buddelhelden and Nordlichtern, the Kapitän Judith area and the Village, visitors can once again expect lots of special presentations. The Nordstil Forum is also back on board with lectures and trend podiums.
